## Wofford named Director of Pesticide & Environmental Programs Division

Kevin Wofford will now serve as the Director of the Pesticide and Environmental Programs Division for the Louisiana Department of Agriculture and Forestry (LDAF).

The Pesticide and Environmental Programs Division, within the Office of Agricultural and Environmental Sciences, inspects, enforces and regulates the registration, distribution, sale, offering for sale, and application of pesticides. The division regulates, trains and certifies private and commercial pesticide applicators, structural pest control applicators, restricted use pesticide (RUP) salespersons, agricul-

tural consultants and Worker Protection Standards (WPS) trainers, as well as regulates and licenses or permits respective businesses.

The division also monitors the state's water resources for pesticides and participates in affiliated federal programs such as endangered species, worker protection and USDA food safety.

Wofford has served the department for 21 years, including 13 years as manager of our Monroe district. During this time, Kevin has worked closely with the department's pesticide programs. He will also continue to oversee the operations of the Seed Programs Division.

## La. farmers harvest average **SWEET POTATO** crop

CHASE, La. – Sweet potatoes are common on the Thanksgiving dinner table, but now this fall favorite is consumed year-round. Sweet potato farmers are busy getting this year's crop out of the ground.

LSU AgCenter sweet potato specialist Mavis Finger said the yield so far is average, and the quality is good.

"A cool wet spring delayed planting statewide, but we saw ideal weather conditions during planting and the early growing season," Finger said.

Because of the delay, the potatoes are smaller. Finger says growers are harvesting a lot of No. 1 potatoes, which is the premium grade, but not as many jumbo potatoes used for processing.

"For the fresh market that is ideal," Finger said. "The processing sector would like bigger sweet potatoes, but the fresh market will be very happy this year."

Finger said the variety Beauregard is still the main sweet potato grown in Louisiana. Acreage also includes two new varieties, Orleans and LA 07-146. And the latter is out-producing Beauregard.

"With LA 07-146, on average, we see about a 15-20 percent increase in yield as compared to Beauregard, which is the industry standard."

Finger said LA 07-146 will go to the processing sector because of the red color of the potato skin. The industry is concerned that consumers won't buy the red-skinned sweet potatoes in the supermarket, even though the flesh is sweeter than Beauregard. Finger said it may take time for consumers to accept a different type of sweet potato.

Louisiana has about 7,500 acres of sweet potatoes. This is a 25 percent reduction in acreage from last year.

Because of the red skin on the sweet potato variety LA 07-146, it is used for processing rather than the fresh market, where consumers prefer a duller, more traditional orange color. Photo by Tobie Blanchard

## Brand Commission arrests four St. Martin Parish men

Baton Rouge, La (October 24, 2013) – The Louisiana Department of Agriculture and Forestry Brand Commission is reporting the arrests of four St. Martin Parish men in connection with the theft of a horse, saddles, tack, feed and a trailer.

On Sept. 26, the St. Martin Parish Sheriff’s Office located the horse trailer in Arnaudville which was reported stolen from Lafayette Parish on July 18.

After a lengthy investigation, the

Brand Commission, with assistance from Breaux Bridge Police Department detectives, recovered one quarter horse mare, two saddles, and assorted tack valued at approximately \$7,100. Also recovered were three saddles that were in the tack room of the stolen trailer. The approximate value of the horse trailer and three saddles is \$6,000.

“This is a significant amount of property stolen worth thousands of dollars. Once it’s reported to

authorities, we work closely and vigilantly to recover whatever we can and bring criminals to justice,” said Agriculture and Forestry Commissioner Mike Strain, D.V.M.

Arrested and booked into the Lafayette Parish Jail with two counts each of theft over \$500 and one count each of theft of livestock are these men from St. Martin Parish: Courtney Jay Jones of 1210 Camp Bon Temps Rd., Breaux Bridge; Ulysus James

Journet of 1034 Kennedy Dr., Arnaudville and Clifford Torrez Demouchet of 1026 Roy J. Melancon Rd., Breaux Bridge.

The fourth suspect, Ronald James Journet of 850 Agnes Dr. Apt. 309, Breaux Bridge, is being held in the St. Martin Parish Jail at this time on unrelated charges and will be brought to Lafayette Parish Jail to be booked at a later date. He will be charged with two counts of theft over \$500 and one count of theft of livestock.

## Sweet Potato Recipes from the Louisiana Sweet Potato Commission

[www.sweetpotato.org](http://www.sweetpotato.org)

### ***Yam Cornbread Stuffing***

2 cups fresh sweet potatoes (yams), peeled and chopped	1/4 cup chopped parsley
1 cup chopped onions	1 tsp. ground ginger
1 cup sliced celery	5 cups crumbled cornbread
2 tbsp. light margarine	1/4 cup pecans
	Chicken broth

In a large skillet, cook sweet potatoes, onion and celery in margarine for 5 to 7 minutes or until just tender. Spoon mixture into a large mixing bowl. Stir in parsley and ginger. Add cornbread and pecans. Toss gently to coat. Add enough chicken broth to moisten. Place stuffing in a casserole dish. Bake uncovered at 375 degrees for 45 minutes or until heated through. Makes about 6 cups (10 servings).

### ***Cranberry Yam Bread***

2 large eggs, slightly beaten	1 1/2 cups all-purpose flour
1 1/3 cups sugar	1 tsp. ground cinnamon
1/3 cup canola oil	1/4 tsp. ground allspice
1 cup fresh sweet potatoes, cooked and mashed	1 tsp. baking soda
1 tsp. vanilla extract	1 cup chopped cranberries

Preheat oven to 350 degrees. Coat 9x5x3-inch loaf pan with nonstick cooking spray and dust with flour. In large bowl, combine eggs, sugar, oil, yams, and vanilla. In separate bowl, combine flour, cinnamon, allspice, and baking soda. Make a well in the center. Pour yam mixture into well. Mix just until moistened. Stir in cranberries. Spoon batter into prepared loaf pan. Bake for 1 hour or until toothpick inserted in center comes out clean. Makes 16 slices.

### ***Drunken Sweet Potato Bread***

1/2 cup flour	2 eggs, beaten
1/2 tsp. salt	1/4 cup water
1 cup sugar	1/2 tsp. nutmeg
1 tsp. baking soda	1/2 tsp. cinnamon
1 cup sweet potatoes, mashed	1/2 tsp. allspice
1/2 cup olive oil	1/2 cup chopped pecans optional topping
6 oz. peach preserves	1 block cream cheese
1/2 nip Jack Daniels whiskey	1 cup powdered sugar

Preheat oven to 350 degrees, sift together the flour, salt, sugar, and baking soda. Mix the sweet potatoes, oil, eggs, 1/4 cup water, Jack Daniels whiskey, peach preserves and spices together. Combine with the dry ingredients, but do not mix too thoroughly. Stir in the nuts. Pour into a well-buttered 9x5x3 inch loaf pan. Bake 50 -60 minutes until a thin skewer poked in the very center of the loaf comes out clean. Turn out of the pan and let cool on a rack. In a small pot, melt the cream cheese and drizzle on the bread. Sprinkle the powdered sugar on top and serve.

### ***Lemon Sweet Potato Casserole***

6 cups shredded peeled sweet potatoes (yams), about 3 medium	2 large eggs
2 tbsp. margarine or butter, melted	1/2 tsp. ground cinnamon
1/2 cup sugar	1 (4 serving) box instant lemon pudding and pie filling
1 cup skim milk	

Preheat oven to 325 degrees. Combine shredded sweet potatoes, margarine, sugar, milk, eggs, cinnamon and pudding mix in a 2-quart oblong casserole dish. Cover tightly with foil and bake for one hour. Remove foil and continue cooking 20 to 30 minutes or until top is golden brown. Makes 10-12 servings.

### ***Pecan Praline Glazed Sweet Potato***

For glaze:

1 pound butter, cubed	1 cup heavy cream
1/2 pound light brown sugar	1 Tbl vanilla extract
1/2 pound dark brown sugar	1 cup pecan pieces

In a heavy bottomed sauce pan, slowly warm the cream. When a heavy simmer is reached, add the butter. When butter is melted add sugars and vanilla extract. Turn heat up slightly and heat until all sugar is incorporated. Stir in pecan pieces. Bake a sweet potato in the oven until cooked throughout. Cut sweet potato in half and rub with the glaze. Place back in oven until sugar is caramelized. Serve immediately.

### ***Sweet Potato Pear Soup***

1 cup chopped onion	1/2 cup vermouth
1/2 cup sliced celery	1 cinnamon stick
2 tsp. vegetable oil	1/2 tsp. dried thyme leaves
3 cups pared, cubed sweet potatoes	1/4 tsp. ground nutmeg
2 cups pared, cubed Anjou or Bosc pears	1/4 to 1/2 tsp. salt
4 cups reduced-sodium, defatted chicken broth	1/4 tsp. pepper
	1 cup low-fat yogurt
	1 Anjou or Bosc pear, cored

Sauté onion and celery in oil in 5-quart saucepan over medium heat for 10 minutes or until tender but not browned. Add sweet potatoes, pears, chicken broth, vermouth, cinnamon stick and thyme. Bring to boil, reduce heat and simmer, covered, 35-45 minutes or until sweet potato is tender. Remove cinnamon stick and puree in several batches in food processor or blender until smooth. Return to saucepan; season with nutmeg, salt and pepper. Serve hot with dollop of yogurt on top. Slice pear into 12 thin slices and garnish each portion with 2 slices.

## Have You Sold Cattle on the Farm?

The beef check-off law goes into effect every time cattle are sold. This includes purebred sales and private treaty sales on the farm. The law requires that you must collect the national, plus the 50 cents state check-off money during your sale. The 50 cents state check-off is now a Mandatory Collection as a result of Act 298 passed in the 1995 Louisiana legislature, but producers may request a refund of this amount only, by written request to the Louisiana Beef Industry Council.

The seller is also responsible under the law. The seller may collect and remit the \$1.50 per head in a private treaty transaction. This is the best way to handle purebred sales. To avoid a late payment charge, money must be remitted by the 15th of the month following the sale. Penalties of up to \$5,000 per transaction applies to violators. All sale transactions are subject to audit to insure compliance with the check-off law.

Please use the form below when submitting the collected check-off funds.

# Rice farmers continue funding research at LSU AgCenter

By Bruce Schultz  
LSU AgCenter

CROWLEY, La. — The Louisiana Rice Research Board reviewed a number of proposals from LSU AgCenter scientists and agreed Tuesday, Oct. 29 to provide \$1.29 million for next year's projects to help Louisiana rice farmers.

Research projects totaling \$1.67 million had been requested by the LSU AgCenter, but the board decided to fund existing projects at 10 percent less than the 2013 total and to fund only two new projects.

This money came from funds generated by an annual checkoff program in existence for more than 40 years. Projects supported with this funding have resulted in the development of new varieties, improved production practices, pest management strategies, and

marketing information.

"The success of the Louisiana rice industry is directly related to the efforts of those scientists who have been supported with these checkoff funds by the stakeholders for many years," said Rogers Leonard, associate vice chancellor and program leader for plant and soil sciences with the LSU AgCenter.

Recently, some of the statutes that dictate the conduct of the rice checkoff process have been ruled unconstitutional as the result of litigation by a small group of farmers.

Under the long-standing process, farmers had been paying 5 cents for every 100 pounds of rice they sold to fund research, and 3 cents for promotion. Now the board is appealing to farmers

to continue paying the assessments under a voluntary program.

Board members said they are confident that most farmers will continue to pay the assessments that will be tax deductible.

"I think the support is there in the countryside," said board member Richard Fontenot, an Evangeline Parish farmer.

"The conservative nature of this board may help keep this station operating," Leonard said. "These funds are critically important to maintaining the intensive operations that are involved in rice research."

Leonard also said Bill Richardson, LSU vice president for agriculture, has agreed to dedicate additional intellectual property funds to support Louisiana rice research, with the members

of the Rice Research Board serving on an advisory committee to provide input on how the funds should be spent.

These funds are generated from royalties on the sale of Clearfield rice, a technology developed by scientists at the Rice Research Station.

Board member Brian Wild, a farmer from Jefferson Davis Parish, said he appreciates the vital role the Rice Research Station and its dedicated personnel have played in the rice industry. "We know this isn't just a job for you all."

Steve Linscombe, director of the Rice Research Station, said he and other rice researchers are appreciative of the funds provided by the board. The research supported by these funds will contin-

ue to pay dividends in the future.

Among the major projects funded are variety development, genetic research into improving rice disease resistance, optimum fertilizer management, hybrid rice development, identification genetic markers to assist in variety development, development of herbicide-resistant rice, plant breeding to develop salt-tolerant rice lines, communications, rice grain quality enhancement, and work on pests, including weeds, insects and disease.

The two new projects are a study of the effects of different water management systems on arsenic concentrations in rice, milling quality and crop yield, and work to improve calibration of aerial applications of fertilizer and rice seed.

The American Sugar Cane League is serious about promoting driver safety during harvest season and has placed billboards on Louisiana's highways with its safety message to prove its point. The billboards feature sugarcane farmer Kassi Berard of Breaux Bridge, who farms alongside her father, Dane Berard. She hopes to take over the reins of the family's farming operation when her dad retires.
